# AMERICANS LEAVE WAR AREA

BLACK NOMINATION  
APPROVED BY SENATE  
COMMITTEE MONDAY  
OPPOSITION TO CONFIRMA-  
TION, HOWEVER, BREAKS  
OUT ON SENATE FLOOR

WASHINGTON, Aug. 16. (P)—The senate judiciary committee approved the supreme court nomination of Senator Black (D-Ala) in a hotly-fought session today, but opposition to his confirmation immediately developed on the senate floor.

A few minutes after the committee had voted 13 to 4 to report the nomination favorably, Senator White (R-Mo) took the floor to argue that Black was not constitutionally eligible for appointment to the court.

The approval was voted after a motion by Senator Burke (D-Neb) to delay action had been defeated 11 to 5.

Members of the committee said the session was one of the liveliest in years.

In the center of the argument, they said, were Senators Burke (D-Neb) and Diefenbach (D-Ill) who clashed over Burke's proposal to summon Black himself for questioning by the committee.

White, in the senate, contended that the retirement of Justices Van Devanter, who Black would succeed, had not created a vacancy on the high bench, but that a new seat was created by the recent supreme court retirement act.

Black would not be eligible for this new place, White declared, because it was established while he was in congress.

WASHINGTON, Aug. 16. (P)—The senate judiciary committee approved today the supreme court nomination of Senator Black (D-Ala).

Voting down all proposals for delay, the overwhelming democratic majority of the committee agreed to report the liberal Alabama nomination favorable and at once.

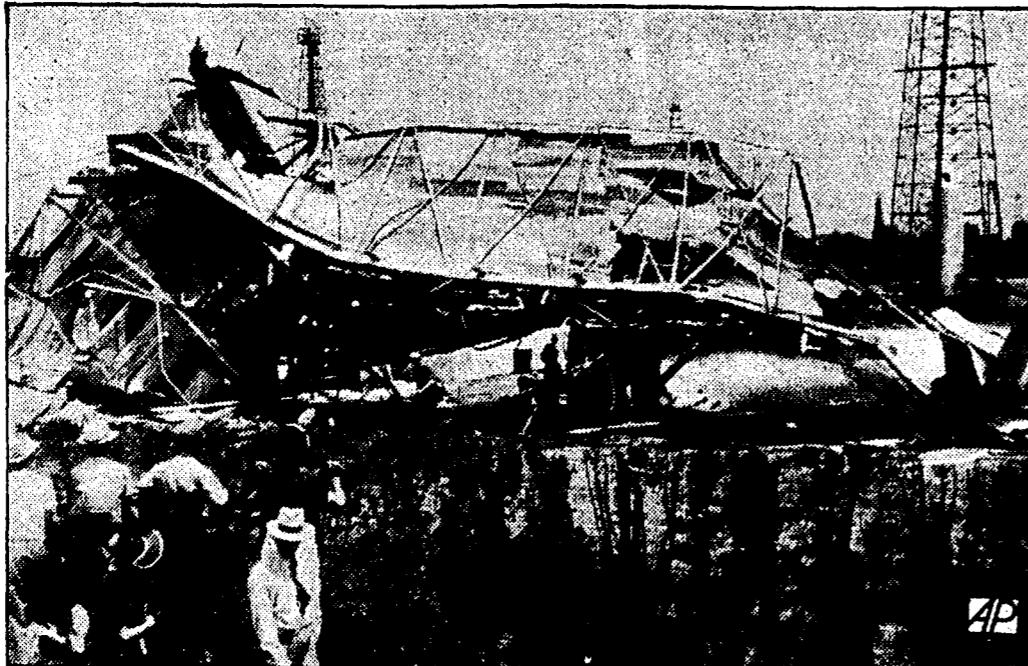

Democratic leaders planned to call the nomination up in the senate tomorrow for confirmation. Republicans already, however, had served notice they would urge its recommitment for hearings, foreshadowing, at least, a bitter debate over the appointment.

The committee turned down requests for general hearings on the nomination, and refused also to delay action long enough to permit Black to appear and be questioned on his views about judicial review.

The committee voted 13 to 4 to

## JIMMY MATTERN IS SEARCHING FOR SIX MISSING AVATORS

## NOTED AMERICAN FLIER HOPE TO REPAY RUSSIANS FOR KINDNESS

WASHINGTON, Aug. 16. (P)—The Soviet embassy announced today that the government radio station at Austin, Texas, had picked up signals "of a week and irregularly working transmitter" believed to be the emergency radio set of Sigismund Levaneffsky, missing Soviet flier.

Before that, the embassy asserted, the Moscow radio station had heard faint signals on Levaneffsky's frequency of 55 meters. Levaneffsky and five companions have been missing since Friday.

The board approved awards for 18 families of \$3,017 for repairing or rebuilding homes damaged by the storm; an additional \$1,000 for household goods to replace those lost during the calamity, and awards for groceries and clothing amounted to \$337.

Miss Blackburn estimated that the awards cared for approximately half of the cases listed, and that funds were badly needed since final action on the other families is scheduled within the next few days.

Funds previously reported \$5,481.00

WASHINGTON, Aug. 16. (P)—The task of training the farmer, mechanic and housewife to do a better job had received a \$21,829,000 boost from congress.

Approximation of this sum for vocational education has more than doubled since the last appropriations. In each of the last three years the appropriation has been about \$10,000,000.

All the money will be expended by the states, the federal government merely making allotments on a population basis.

Of the total, \$7,146,000 appropriated under the continuing

Smith-Hughes act of 1917 must be matched dollar for dollar by the states. The remainder appropriated under the General Appropriations Act of 1936 requires the states to put up 50 cents for each federal dollar.

The enrollment in vocational

classes in 1936 was 1,381,701, and increase of 134,178 over 1935.

Some of the uses which the states make of additional federal funds are:

New programs in backward

communities, vocational education in the distributive occupations, special classes for untrained, unemployed youth, apprenticeship training, and retaining for unemployed whose special skills have suffered from long disease.

## CINCINNATI WOMAN INDICTED ON TWO MURDER CHARGES

## MRS. ANNA HAHN HELD IN ALLEGED 'BIGGEST MASS MURDER' IN NATION

CINCINNATI, Aug. 16. (P)—After receiving evidence in what Prosecutor Dudley Miller Outeal termed "the biggest mass murder in this country," the Hamilton county grand jury today indicted Mrs. Anna Hahn, 31-year-old mother, on two charges of murder.

The jurors charged her with the "malicious and premeditated" slaying of George Gesselman, 67, who died suddenly July 6 and Jacob Wagner, 78, a teamster, who died June 3.

The two indictments were reported to Judge Charles S. Bell within fifteen minutes after the jury was called to consider the case. Police have nine other unexplained deaths under scrutiny, four of which were of elderly German men with whom Mrs. Hahn admitted having been friendly.

Only four witnesses testified. Acting Detective Chief Patrick Hayes, Lieut. George Schatze, chief of the police homicide squad, Detective Walter H. and Assistant Prosecuting Attorney Frank M. Guewiler presented briefly evidence uncovered in the far-reaching inquiry.

Schattie said Mrs. Hahn had been linked "either directly or indirectly" with fatalities which date from the death in 1933 of Ernst Kohler, elderly teamster, to George Oberdoerfer, moderately wealthy cobbler, who died Aug. 1 in Colorado Springs, hospitalized Kohler bequeathed her his \$12,000.

Sheriff Norfleet Hill said the negro had confessed, blaming his action on an argument over driving a truck to Houston in which Wheeler was riding. The sheriff said Hahn had told Wheeler had engaged him to drive him to Houston near Arcola after the guard's automobile had been damaged in an accident.

Hill said the negro confessed he knocked Wheeler down twice, grabbed the guard's gun and then "shot him three or four times."

Officers found a lumber receipt near the dead man's body which they traced to Harris.

Funeral services for Wheeler will be conducted tomorrow afternoon. He was survived by his widow, a daughter, three sisters and a brother.

## TWENTY-TWO TEXANS DIED VIOLENTLY IN WEEKEND ACCIDENTS

## TRAFFIC ACCIDENTS TAKE TOLL OF SIXTEEN; FIVE WERE DROWNED

By the Associated Press

Traffic accidents claimed 16 lives in Texas and six others died violent deaths including five drownings.

Johnnie E. Beckham, 29, of Tyler, and A. A. Jackson, about 33, of Athens, were drowned in Trinidad lake near Malakoff, Clydes Roberts, 25, and Rowe Creager, 22, both of Graham, Texas, drowned in their motorboat capsized. Mrs. Howard C. Maddox, 24, of Fort Worth, was another drowning victim.

The showers Sunday were not heavy enough to do any good other than break the heat wave.

The showers Sunday were not heavy enough to do any good other than break the heat wave.

Clouds and a good breeze from the south kept the temperature down Monday morning. The thermometer at the Daily Sun office registered 84 at 8 o'clock, several degrees lower than usual at that hour, and by noon had climbed slightly.

## POURING CONCRETE UNDER WAY HIGHWAY NO. 22 THIS WEEK

Pouring of the 20-foot concrete slab on Highway 22 from Pinkston to Frost via Barry and Blooming Grove got under way this afternoon at Pinkston. The job is slightly in excess of 13 miles and will be pushed as fast as possible by the Austin Company contractors.

With the beginning of this work, considerable road construction is under way on this highway between Corsicana and Hillsboro.

The highway from Hillsboro to the Hill-Navarro county line is to be treated with a three-application asphalt topping pavement and is scheduled to be rushed to completion.

When the work on these two contracts is completed, only a few miles extending from Frost to the county line will remain unpaved. Local road officials have hopes that this stretch and gap will be closed while the present work is in progress, although no official announcement has been made.

Contracts have not been awarded for any work on the highway in the area extending from Eureka to Anderson county, via the now bridge in the Wildcat Ferry sector, but it is understood that the highway officials plan a considerable improvement as soon as possible, including a bridge spanning Chambers creek in Southeastern Navarro county.

## Plans Navarro County Day at Pan American

## CLYDE ROSS WILL BE SUPERINTENDENT OF POWELL SCHOOLS

Clyde Ross, who taught at the William B. Travis school during the 1936-37 year, and who had been elected as junior high school coach here for the 1937-38 year, has resigned to accept the position as superintendent of the Powell schools for the coming school year. His resignation has been accepted.

Ross will fill the vacancy left by the recent resignation of El L. Blansitt, formerly superintendent of the Powell schools.

Ross graduated from the Corsicana high school in 1929; attended Texas Tech, Lubbock, for one year, and then received his B. S. degree from Abilene Christian College.

Last summer he did work on his Master's degree at North Texas State Teachers College, Denton.

The Powell schools have 19½ affiliated units.

Harry P. Savage, above, assistant to the promotional director of the Pan-American Exposition, now in progress at Dallas, was in Corsicana Friday in the interest of Navarro county day at the Exposition.

While here he conferred with Lowry Martin, R. W. Knight, secretary of the Chamber of Commerce; Mayor J. S. Murchison; Ed Wender, president of the Civilian Club; Dr. H. B. Love, president of the Lions Club; Dr. C. Curtis, president of the Rotary Club, and other leading citizens.

No definite date has been set and will not be until Ted B. Ferguson, who is chairman of the committee in charge, returns from his vacation. The date will probably be during the latter part of September, Mr. Savage said.

Mr. Savage said that considerable interest was being shown in the day by not only those in charge of arrangements, but by the citizenship in general.

A special program will be arranged for Navarro county guests, Mr. Savage stated. Details will be worked out with the committee in charge.

## Announcements Of Marriage Popular Girl Are Received

Corsicana friends have received announcements of the marriage of Miss Pauline Pace Womack, daughter of Mrs. Louise Pace, Mrs. Pauline Pace, and Samuel Swan.

The summer wedding took place Monday, August 9, at St. Marks Episcopal Church, San Antonio, Texas.

Following the ceremony, Mr. and Mrs. Swan left for a trip to New Mexico.

They are expected to arrive Wednesday and will be the guests of their mother for a week.

They will then continue their trip to California to be gone for several months.

## EIGHT MEMBERS OF NATION'S LAST ORGANIZED KIDNAP GANG FACE PRISON SENTENCES TODAY

BINGHAMPTON, N. Y., Aug. 13.—(Spl.)—Eight men federal agents said are members of the "nation's last organized kidnap ring" faced today prison sentences of from 28 to 77 years for the 1933 abduction of John J. O'Connell, Jr., of Albany, N. Y.

Convicted by a federal jury after less than three hours of deliberation on 11 weeks of testimony, the eight men, securely masked, to each other, paled visibly as the verdict "guilty on all the charges" was spoken.

A few minutes later, Gray-haired, soft-spoken Federal Judge Frederick H. Bryant pronounced sentence on Manning Strewl, 35, John Oley, 36, and Percy Geary of Albany, and Charles Harrigan 37, Thomas Dugan, 35, George Gargulko, 31; John McGlone, 34, and Harold Crowley, 31, of New York City.

The nephew of Daniel P. and Edward J. O'Connell, Albany democratic leaders, the kidnapping victim was held outside his Elmwood street home in Albany early on the morning of July 7, 1933.

He was carried to Hoboken, where he lay chained to a bed until the ransom was paid.

The hunt for his abductors culminated nearly four years later in the arrest of 12 men. They were indicted last spring along with 13th, James Sweeney, who is still at large.

Joseph G. M. Browne, counsel for Strewl, announced he would file notice of appeal for all the defendants "at once."

## MAVERICK CITES STATISTICS TO INDICATE WAGES AND HOURS LEGISLATION TO BENEFIT SOUTH

WASHINGTON, Aug. 13.—(Spl.)—Representative Maury Maverick of San Antonio, Texas, inserted in the Congressional Record tables of statistics obtained from various governmental departments to support his contention that wages and hours legislation will benefit Texas and the South as well as the North.

He said many Texas employers had written to him declaring such legislation would "destroy" them, but that it was his belief the rather than hurting "that part of the United States which I live in" it will be a direct benefit to it."

Maverick said that in one industry in his district he had found giving wages for as low as four cents an hour.

He said that Texas is suffering greatly from "absence ownership," and that it should first rid itself of exploitation.

Included in the tables he cited were figures showing:

## "SWEET TEMPERED" TYPEWRITER IS INVENTION OF NEWARK MAN; EVEN TENOR OF WAY IS KEPT

By JOHN LEAR  
NEW YORK, Aug. 14.—(Spl.)—Invention of a "sweet tempered" typewriter was announced today by Joseph Spielvogel of Newark, N. J.

No matter how angry you are when you use it, the machine refuses to get fired.

Punch the keys as hard as you will, but the typewriter keeps putting the letters down on the paper at the same even-tempered, undisturbed pace.

The machine is enough to make a stenographer wild with envy. It types each letter so that every word is as black as the next one. It pushes the "i" key more lightly than the "w," for if the two fell with equal weight the "i" would be darker than the "w."

The invention prints type similar to that of a printing press. Instead of giving each letter

the same amount of space, as is the case on conventional typewriter keys, the device with the unruled temper varies the space to suit the size of the letters, as in standard type.

It prints bold face type when the proper control is adjusted.

A complete newspaper, except for headlines, could be produced on the typewriter. Spielvogel said for it to automatically expand the type to bring each line out even at the right as well as at the left margin.

Spielvogel said he had obtained a permission from the federal government to license prospective manufacturers of the invention.

Spielvogel is the man who three years ago invented stretchable paper. If the lines you typed didn't come out even, you could stretch them until the arrangement.

## GRAND JURY RETURNS 13 INDICTMENTS ON FRIDAY, THIRTEENTH

## WORDS OF COMMENDATION FOR OFFICERS AND WAY INSTITUTIONS RUN

Returning 13 indictments on Friday, the 13th, the Navarro county grand jury made its final report in the district court Saturday morning before J. S. Simkins, special district judge, who presided at the recent trial of the case.

**RICH, SILLY AMERICA**

"Worst thing about that  
Russian famine was the  
dullness with which they  
met death," said the young  
college graduate reading  
"Durant Reports Russia." "They  
saw starvation coming and couldn't do  
anything about it." Then from  
a later chapter, "But America  
did help, after all." Dim  
childish memory struggles  
back. "Was THAT what we  
had our pictures in the press  
for?" "Yes," said her mother.  
"The editor thought it  
would help the fund to  
print the story of the fam-  
ily, complete with grandma,  
giving up half its Christmas  
money to help the little Russian  
children."

"Half our Christmas mon-  
ey!" said the girl with sud-  
den tears. "Nothing!" She  
read aloud:  
"Boy of eight or ten—not  
a child, a nightmare. Arms  
no wider than rulers, so  
emaciated look as thin as  
ruler's edge. Fingers no fatter  
than good-sized match, I  
compared them. Little tri-  
angular face shrunk to the  
size of a woman's hand. Blue  
eyes utterly disinter-  
ested. May weigh fourteen  
pounds, just skin tense over  
wasted skeleton. In garden  
of collecting station thin cup  
gavel given—set down with  
thirty other starvelings col-  
lected that day—500 now  
in the station—"

Russia has come far since  
1921. What of America? See  
the headlines of today. Capital  
and labor squabbling over  
who shall give relief and  
how—everybody jealous of  
his little brief authority,  
trying to pass the buck of  
his simple duty lest he be-  
come unpopular. Greedy  
grabbing of government  
money by chiselers at the  
bottom—greedy evasion of  
taxes and responsibilities at  
the top.

Where is the justly fam-  
ed American competence,  
that whole-souled, intelli-  
gent devotion which beat  
the Russian famine.

Organizing this and fuss-  
ing over that, like a propeller  
out of water, shooting  
off noise and air with no  
forward motion of the ship.

O rich, silly America!  
Look at yourself! You have  
everything—nature and  
wealth and the power of  
men to make, and to dis-  
tribute. You have the power  
to be just, to be useful,  
to be kind. Why don't you  
give yourself a shake out of  
your nightmare of pettiness,  
wake up, get yourself going  
and get out of these drifting  
goldrums?

**HANDLING THE HARV-  
EST.**

The WPA officials in  
thirteen states have pre-  
pared to release men from  
relief projects to work in the  
harvest fields, with under-  
standing that when they are  
no longer needed to get the  
crops in they may return  
to their projects without  
further red tape.

This is good business.  
There has been too much  
complaint from farmers of  
late that men would not  
work when there was work.  
Surely those unwilling to  
harvest the grain have no  
claim on the bread thereof.

Labor-saving machinery  
has cut down to an appre-  
ciable extent the former  
need for seasonal labor  
which kept an army of trans-  
ient laborers following the  
ripening of the grain like  
migratory birds. But there  
is still need for the season-  
al worker. Cotton, for ex-  
ample, has a way of open-  
ing all at once beyond the strip characters.

**JUST FOLKS**

(Copyright, 1937, Edgar A. Guest)

**ARRIVED SAFELY.**

What has become of that good  
old phrase which we used so much in our  
yesterday? When travel meant danger and  
strange delays: Arrived safely!

Don't you remember it, dear old  
friend? How always we ran at a jour-  
ney's end to the telegraph man this news  
to send: Arrived safely!

They watched for the boy who  
should come to bring  
This message and silence their  
worrying: Arrived safely!

Now the danger of travel has  
passed away, Trains run on schedule by night  
And nobody telegraphs back to  
say: Arrived safely!

**BIGGER YOUNG FOLKS.**

So many people have  
said "He's only four, but  
he wears six-year sizes" and "he's only 14, but he  
has to have size 36" in the  
last few years that the International Association of  
Clothing Designers have decided to do something about it. They find that young  
people are actually bigger than they used to be and  
that garments must be re-  
designed and re-marked for  
size accordingly.

This increase in size was  
suspected when our sol-  
diers were being outfitted  
for the World War. The  
sizes which fitted the boys  
of 1860 were no longer  
large enough—the average  
young man was both taller  
and heavier than his grand-  
father at the same age.

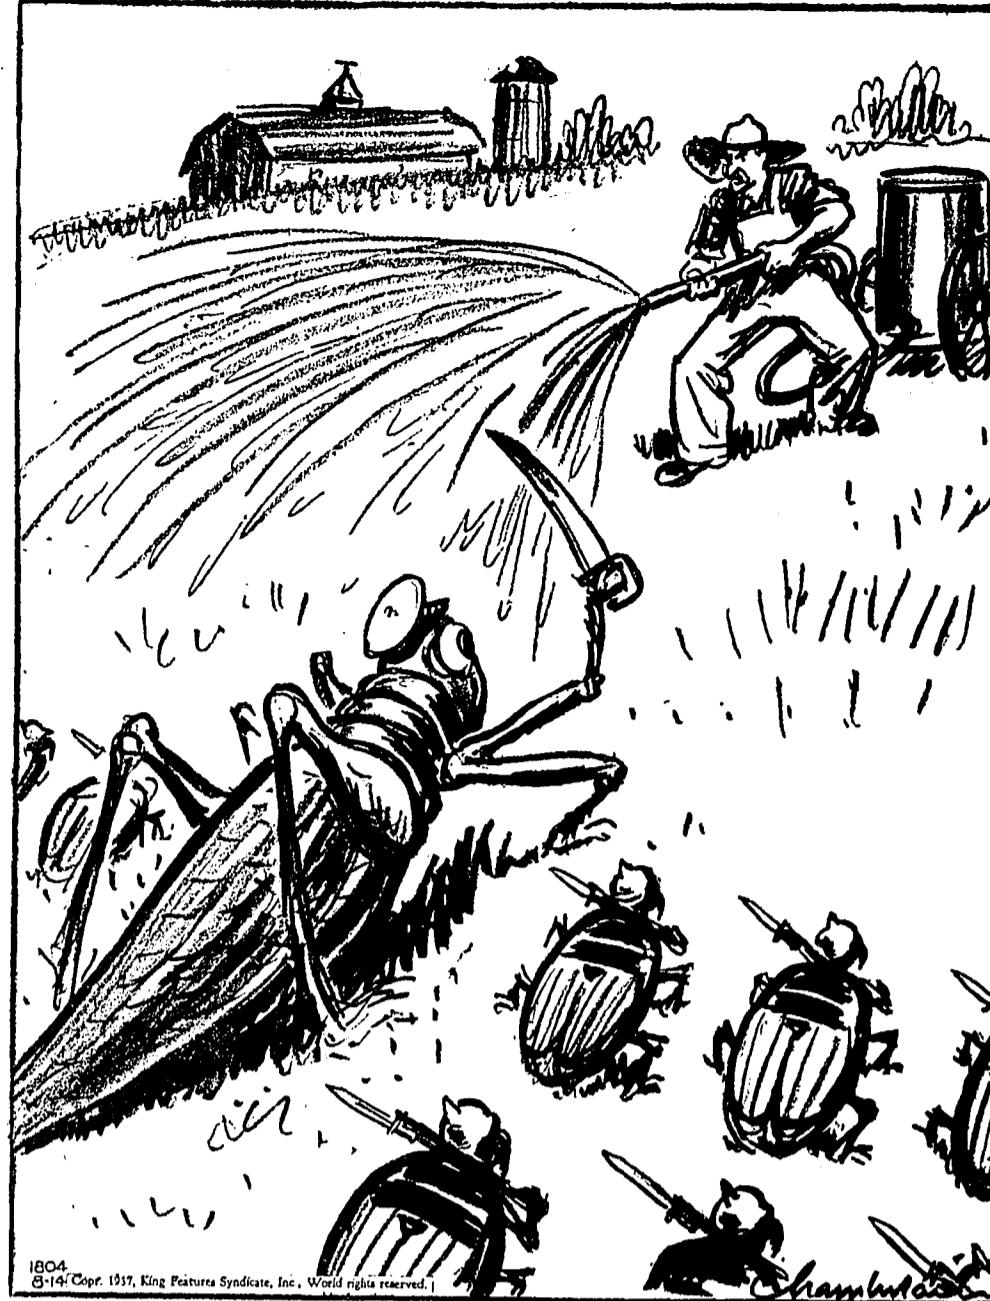

The reports of physical  
examination of students  
which come from the older  
colleges verify the fact. The  
students of today are larger  
than their fathers and  
grandfathers who went to  
college. The case is the  
same with girls, and applies  
to students and workers of  
both sexes alike.

Maybe it's spinach. Maybe it's  
milk. Maybe it's more fresh air and less  
sewing-in for winter. Nobody  
knows. But every little gain  
in simplicity and good sense  
applied to living, every gain  
in standards of food and  
shelter and clothing and ex-  
ercise seems to be register-  
ed for New York but  
hardly conclusive for the  
rest of the world.

A British conclusion  
made after study of reports  
submitted by twelve nations,  
is that the cottage is the  
best form for the cheap  
house to take. John Dower,  
who made the report for  
England, says that families  
can be housed in living  
units of three rooms with  
bath and necessary land  
with the cottages costing  
only \$1,900, the suite in a  
four-story flat \$2,600 and  
the suite in a ten-story  
apartment \$2,900. Perhaps  
the flats have more of what  
is called modern conveniences.  
But the cottage affords more privacy, more  
light and air, better chance for  
garden and avoids stair-  
climbing. An interesting  
point is made of the latter  
that climbing stairs keeps  
people indoors. This might  
not apply so much to a  
two-story house, but it does  
apply to the apartment.  
The flat-dweller does not  
go in and out so often as  
the family in the one-floor  
cottage.

The authorities at Hold-  
rege, Nebr., have found it  
necessary to threaten court  
action against motorists  
who block normal traffic  
by jamming streets near the  
station merely to watch the  
streamliner arrive. It is said  
that traffic tie-ups have  
been serious, slowing down  
city traffic and endangering  
anybody involved.

Perhaps there ought to  
be special observing areas  
maintained just for train-  
gazers along the rights of  
way of railroads operating  
ultra-modern trains. Then  
the spectators could come  
as often as they liked without  
getting themselves or  
anyone else in a jam.

PLANS FOR LIVING.

Not only in the United  
States does discussion go  
on about the best and  
cheapest home for the work-  
ingman. England, Germany,  
France and other  
countries have had experts  
studying housing for many  
years. An American re-  
port prepared by the Housing  
Study Guild of New  
York says that the most  
economical housing is that  
in six-story apartment  
buildings. Which is interest-  
ing for New York but  
hardly conclusive for the  
rest of the world.

**DROUGHT-RESISTING  
CORN GROWN YEARLY  
IN BRADY SECTOR**

BRADY, Aug. 13.—(AP)—For 40  
years the Elder family has planted  
a drought-resistant variety of  
corn as unusual in origin as in  
the results it yields.

In 1897, when the late B. H.  
(Dad) Elder lived near Mason a  
tenant rented some of his land  
to grow corn, but delayed plant-  
ing until late in May. Then the  
planter lost interest and told  
Elder he might have the crop  
provided Elder would work the  
field.

Because of drought nearly all  
in the neighborhood except  
Elder's patch failed. It produced  
a notably heavy yield, even  
the smallest ears being well filled.

Since then the same strain of  
seed has been planted regularly  
by the family and today grows  
on the farm of Frank Elder of  
Brady. Now known as "Elder"  
corn, it ranges in color from a  
purple russet to a yellow. Elder  
believes it originated from a va-  
riety called "Bloody Butcher."

Elder says the corn is medium  
soft and is so well acclimated  
that in time of drought it will  
not "fold up." Its growth will  
halt for a time, then, with mol-  
titure, the corn will revive and  
"make."

A guest prize was given and  
high score prize went to Mrs.  
Harry Hervey. A two-course  
luncheon consisting of mod-  
ern salad, pinwheel cheese and  
wishes, stuffed tomatoes, Saratoga  
chips, olives, iced tea and ice  
cream and angel food cake and  
cookies, was faultlessly served.

Guests for lunch included Mes-  
sames Jerry Daniel, C. P. Ray, Kit  
Rowe and Misses Dorothy Joe  
Everhardt and Elizabeth Ann  
Wicker of Dallas.

The number of parlor games were  
enjoyed, the beautiful array of  
gifts, admired, and refreshments of  
punch and cake were served to  
Mesdames M. Fitzgerald, Sidney  
Westbrook, Geneva Johnson, Done All-  
sup, A. B. Kerley, Lewis Sanle,  
J. O. Barnet, D. S. Etheredge,  
N. S. White, Wilbur Black, Isla  
Land; Misses Hortense Rampy,  
Louise Duncan, Geneva Couch,  
Juanita Redor, May Lee Petet,  
Janice and Thelma Joe Blissett,  
Anna Johnson, all of Koenigs, and  
Mrs. R. E. Skiles and Mrs. Le-  
roy Brannon of Malakoff.

Mr. Thompson declared that his  
association favored and is aiding  
in every way possible the con-  
struction of more and better roads  
in Texas, and opposing every effort  
to reduce the amount of funds available  
for this work. Available funds in the state treasury  
have enabled Texas to take  
advantage of several federal of-  
ficers that were not proffered other  
states, Mr. Thompson said.

The association also prints "Tex-  
as Parade," a monthly magazine  
that is devoted to news and  
news of state highway patrol,  
the state highway department and  
also to the exploitation of the  
many beauties and riches of the  
state.

**Six Cars Onions  
Shipped Out From  
Dawson This Year**

DAWSON, Aug. 13.—Six cars of  
onions had been shipped out of  
Dawson by rail through Wednes-  
day night, and a large quantity  
have been sent out by truck.  
Prices are ranging from 50 to 60  
cents per bushel.

Several cars of maize also have  
been shipped from this community.  
There had been 42 bales of cot-  
ton ginned here through Wednes-  
day.

It is the same way with  
eggs and butter and fruits  
and vegetables. Mrs. House-  
wife has to inquire prices  
and study quality and adapt  
her meals to her purse, remem-  
bering always the family's  
needs—energy, vitamins,  
and all the rest. It's  
not a job to belittle.

We must have our heroes.  
Nowadays the public even  
sends fan mail to comic  
strip characters.

**LOCAL EMPLOYMENT  
SERVICE FURNISHES  
PICKERS TO FARMERS****ORDERS ON FILE FOR 150  
ADDITIONAL COTTON PICK-  
ERS THIS WEEK**

Last week the Texas State Em-  
ployment Service referred 130 cotton  
pickers to Navarro county  
fields and the service expects to  
refer 150 more to be sent  
out. The service will be re-  
ferred if available. W. S. Bush-  
am, local manager stated yes-  
terday, for cotton growers of this  
district who contact the employ-  
ment office at the post office  
building or phone 442 and leave  
orders.

Five hundred letters were mailed  
last week by the employment  
service to Navarro county farm-  
ers offering help in securing cotton  
pickers to gather the season's crop.  
The letters stated that the em-  
ployment service expects to refer  
both large and small crews  
of workers who are registered,  
also a number of families who  
will move to farms and remain  
throughout the harvesting season.  
Some pickers can provide their  
own transportation and some can  
not and must depend upon the  
farmers to haul them back and  
forth. The price paid for cotton  
picking is to be agreed upon  
between the farmer and the  
worker as no jurisdiction over wages  
and is interested only in referring  
qualified farm hands to jobs  
that need them.

Busham reports that 1498 farm  
placements, mostly cotton choppers,  
were made in this district during  
July; that 457 private  
farmers were made arrangements  
building construction, cafes and  
factories were the peak industries  
served. There were 349 people  
placed on public works jobs in  
the 14 counties of the district.

Representatives of the employ-  
ment service called upon 893 em-  
ployers in this district last month  
offering them the service of the  
organization and soliciting their  
continued co-operation in sending  
applicants seeking work for registration.  
As a result, 756 new applica-  
tions for work were received in  
July.

**Four Homes Were  
Reported Entered  
Thursday Night**

City officers were engaged Fri-  
day morning in investigating four  
burglaries in Corsicana sometime  
Thursday night in which a watch,  
some money, and two electric fans  
were stolen.

The homes of Leon Daniels at  
2003 West Collin street and R.  
D. Kinney, 2019 West Fifth avenue,  
were entered early Thursday  
night. About \$18 was reported  
missing from the Daniels' home  
and two electric fans from the  
Kinney home.

The home of J. A. Sowell at 619  
West Seventh avenue was entered  
sometime during the night and a  
watch taken. Entrance was  
gained to all the homes through  
screens or screen doors.

The home of J. N. Wheelock at  
102 North Twenty-ninth street  
was also entered Thursday night  
and a small radio set was miss-  
ing.

**Gas Chambers Get  
Four Victims Upon  
Friday Thirteenth**

RAWLINS, Wyo., Aug. 13.—(AP)—  
Paul H. (Jerry) Carroll, 38, the  
first of two Western murderers  
whose "last mile" was marked off  
for Friday the thirteenth, died  
early today in Wyoming's new  
lethal gas chamber.

Tonight, at the Colorado state  
prison at Canon City, Frank Aguilar,  
43, is due to pay a similar  
debt to society.

Carroll was convicted of the fatal  
shooting Oct. 27, 1935, of C. C.  
Barnard, Union Pacific super-  
intendent of Cheyenne, Wyo.

Augilar, the sex killer of 15-  
year-old Dorothy Dran of Pueblo,  
Colo., will become the sixth man  
to die in the Colorado gas chamber.

Two Die in Arizona.  
FLORENCE, Aug. 13.—(Sp.)—Mr.  
and Mrs. Mike Kamen honored  
their little niece, Eleanor Ann Kan-  
men of Athens, with a spend-the-  
night party Wednesday night at  
their lodge at the city lake.

It is an annual affair, to  
which Mrs. Kamen looks forward  
with much pleasure. Out of town  
guests included Daniel Levy and  
Eddie Daniel of Corsicana, and  
the honoree's parents, Mr. and  
Mrs. Dave Kanmen of Athens.

**CASHING  
CHECKS  
AT THE  
BANK**

FREQUENTLY, people who are not cus-  
tomers ask us to cash checks. We can oblige  
them only when they are properly identified, or  
establish financial responsibility.

The reason for this, as any banker will tell you,  
is simple. A bank, when it cashes a check, must  
be sure that the money has been paid to the  
right party. It must also protect itself against  
the check returning unpaid due to insufficient  
or uncollected funds.

The best way to avoid delay or inconvenience  
is to open a checking account in this bank.

## Mrs. J. D. Robinson Leaves For Visits With Her Sisters

Mrs. J. D. Robinson left on an early train Saturday for San Angelo to visit her sister, Mrs. W. J. Fields, for a week. She will then go to Sonora to be with her niece, Mrs. Alvin Gibson. After spending a few days there, Mrs. Robinson will continue her trip to San Antonio to visit her sister, Miss Adah Gibson, who is a teacher in the San Antonio city schools. She will be gone two weeks.

## Regular Meeting of Eastern Star to Be Held Tuesday Night

The regular meetings of the Eastern Star chapter will be held Tuesday night at 8 o'clock in the Masonic hall. Plans for the annual picnic will be discussed and all members are urged to be present.

## Former Residents Of Dallas Making Home in Corsicana

H. H. Cox, an employee of the Southwestern Bell Telephone company, a former resident of Dallas, has moved to the city where he and his family are permanently located. They are at 618 North Twenty-sixth street.

## Visitors in Daiches Home Return to Their Homes In Austin

Mrs. Sam Daiches and daughter, Roslyn, left at an early hour Monday in their car for Dallas, accompanied by Misses Goldie Jean Gellman and Regina Zelie Gobeg. Misses Gellman and Goldberg have been the house guests of Miss Daiches for a week and have enjoyed numerous courtesies, luncheons, parties and picnics. Dallas and all will return to their respective homes in Austin.

## DUST BOWL

(Continued From Page One.) He said the legislation followed recommendations made by President Roosevelt's great plains committee in a message to congress early in the session.

The bill has been approved by M. L. Wilson, assistant secretary of agriculture.

Sponsors said that \$10,000,000 in federal relief funds probably would be made available to the agriculture department for a winter storage and utilization program if the bill was enacted into law.

"It is generally recognized," Jones said, "that the chief step that could be taken in the problem of the great plains and the arid and semi-arid areas of the country is the conservation and proper use of the water that is available. In practically all of the affected areas, sufficient moisture falls, if properly conserved and utilized, to serve all practical purposes during normal years."

## Hollywood SIGHTS AND SOUNDS

By ROBBIN COONS

HOLLYWOOD — People who think he is a genius. Every time I see the man, I too come away convinced that he is a genius. And I have just seen him.

Tomorrow, when the hypnotic spell wears off, I may concede that C. B. is only a very smart fellow, a master showman, and a superb actor. Today, for my pennies, he is a genius. And not only that—he is making the greatest movie of all time.

He made no such claim for "The Buccaneer" story of Jean LaFlite, Louisiana pirate and patriot. He merely talked about it, about LaFlite and his stirring times and deeds. He merely related, with vigor and keen dramatic sense, a few highlights which he expects to record on film. He merely loosed a quiet, sparkling stream of enthusiasm which washed away all doubts, if any existed, concerning "The Buccaneer."

And while he talked, he worked. He received a seamstress who wanted approval of a costume; he answered calls, telephoned orders, received henchmen each of whom wanted a decision on some detail of production.

He talked to his production unit in Louisiana, discussed progress, gave directions as to a scene being made 2,000 miles away—and then, when he had done, picked up his discourse to me where he had left off.

He was submerged in "The Buccaneer." Office walls were covered with Dan Sayre Groesbeck's lushly romantic paintings of scenes yet to be filmed. A table bore miniature sets yet to be erected in life size. There were Dwight Franklin figurines of pirates, and stacks of documents, photostatic copies of letters stained with pirate blood, books, histories, maps. DeMille, the student of history, was in his element.

He was not yet in full directorial flower. His business suit was conservative, his haberdashery mild. Later he would don puttees, and vivid shirts, and become Ye Compleat Movie Director—with megaphone. Later he would bark orders, like a god from Olympus. Later he would flay his extras with verbal lashes, make his subordinates hop at the crack of his whip, make them hate him and love him and get his picture finished.

But now, in his office, he was urbane, serious and humorous by turns the scholar, the business executive, the genial human fellow of broad and cultured interests—and the genius.

## Camp Mystic Closes For Season

In the above picture will be noted Corsicanans and former campers from all over the state. Among the Corsicanans and former campers noted at the pageant were the following: Mr. and Mrs. Lynne Wortham, Mesdames R. L. Wheelock, Gladys Kinsolving, Fred Taylor, Mrs. V. Wheeler and daughter, Mary Boone, Mrs. J. N. Wheelock and son, John Nim, Mrs. Ben McRae and sons, Ben and Billie; Misses Hattie McDaniel, and Judith Polk; Mr. and Mrs. Harry Blanding and daughter, Cora Frances; Mr. and Mrs. Bob Henderson of Houston, Truman Bragg of Austin, and Mr. and Mrs. Lexie Jarrel of Houston.

**Closing Activities.** Closing activities at Camp Mystic began early Thursday morning when the annual Horse Show was held, and in which the Corsicanans girls, Carey Kinsolving, Dolores Wortham and Betty Wheelock took part. Carey Kinsolving was initiated into the riding club which is known as The Horsemen, and made this season. Gladys Kinsolving and R. L. Wheelock were in attendance at the Horse Show Thursday morning, and enjoyed it very much.

**Water Pageant.** "Cinderella," the colorful water pageant which was held on Friday evening, featured the entire camp — one hundred and fifty girls, and was attended by fathers and mothers and friends of the campers from all over the state. Among the Corsicanans and former campers noted at the pageant were the following: Mr. and Mrs. Lynne Wortham, Mesdames R. L. Wheelock, Gladys Kinsolving, Fred Taylor, Mrs. V. Wheeler and daughter, Mary Boone, Mrs. J. N. Wheelock and son, John Nim, Mrs. Ben McRae and sons, Ben and Billie; Misses Hattie McDaniel, and Judith Polk; Mr. and Mrs. Harry Blanding and daughter, Cora Frances; Mr. and Mrs. Bob Henderson of Houston, Truman Bragg of Austin, and Mr. and Mrs. Lexie Jarrel of Houston.

**Other Campers Kerrville Sector.** Buena Allyn Watt, Ruth Clayton and Lynn Davis attended Camp Arrowhead during the past month, and enjoyed a very pleasant stay in the Heart O' the Hills country. Buena Allyn returned to Kerrville with Misses Hattie McDaniel, Judith and Josephine Polk, Mrs. Fred Taylor, and daughter, Cynthia. Lynn Davis is visiting relatives in San Antonio, and Mr. and Ruth Clayton has gone to Houston for a visit.

Ben and Billie McRae are attending Camp La Junta, a popular boys' camp near Kerrville, and Mrs. Ben McRae is spending the summer at Heart O' the Hills Inn.

John Nim Wheelock, who at-

tended Camp Stewart the early part of the season was weekend visitor at the camp last week.

Constance Logsdon, who attended Camp Mystic the early part of the season, returned home July 15th, after spending a few days with her mother, Mrs. V. K. Logsdon, at Heart O' the Hills Inn in Kerrville.

**Corsicanans in Kerrville.** Mrs. V. E. Wheeler has been a member of the faculty at Schreiner Institute for the past six weeks, and her daughter, Mrs. George Weaver, in Dawson.

Mr. and Mrs. Will Goldman have returned from a pleasant visit in Manitou and Colorado Springs, Colo. They have been gone seven weeks.

Mr. and Mrs. R. R. Nichols of El Paso, and Mrs. J. W. May and daughter, Mildred, of Port Arthur are the guests of Mr. and Mrs. Cal Kerr and daughter Mary Louise. Mrs. L. S. Clark of Dallas is the guest of Mrs. Arthur Beaverton.

Gordon L. Johnson and young daughter, Shirley, of Dallas spent Sunday afternoon with Mr. Johnson's mother, Mrs. Cora Johnson.

Mr. and Mrs. Ralph Brown have returned from a most delightful trip to Santa Fe and Taos, New Mexico. They visited in Colorado Springs, were gone two weeks and spent most of their time fishing.

**Birthday Party And Dinner Features Of KERENS Social Week**

KERENS, Aug. 16.—(Spl.)—Honoring his daughter, Julia, on her 16th birthday, Mrs. Rosco McConaughay entertained with a lawn party Friday night. The girls, each in her ankle-length dress, and their escorts in white suits, made a gay and impressive scene, but the winds and they indulged in the familiar and hilarious games of childhood, which insure the success of any party.

Misses Mildred Slay and Francis Hampill added further to the evening's entertainment, with the telling of fortunes, which was done in a most interesting manner. At a late hour the beautifully decorated birthday cake was served with punch and candles.

Among those who attended were, Misses Patsy and Elsie Arnett, Robby Tys, Norma Joe White, Annabelle Speed, Anna Joyce Sheppard, Norma Jean, Mrs. John McCown and Maurine Bates, Don Puryear, Elinor Pinchbeck of Corsicana, and Misses R. A. Ward, Jr., Woodrow Massey, Keith Jennings.

**Birthday Dinner.** KERENS, Aug. 16.—(Spl.)—W. T. Stockton, president of the First National Bank, was the recipient of a lovely buffet dinner, prepared by Mrs. Stockton, in honor of his birthday, Saturday evening.

Served at the table on the spacious and well-lighted lawn, it was a meal after a man's own heart, and to those in attendance completely robbed the date (Friday the 13th) of its significance.

The menu consisted of chicken pie, ham loaf, hot rolls, green beans, relishes, pickles, vegetable salad, and as a grand finale, the birthday cake (with three candles) served with home made peach ice cream.

Mrs. H. A. Quatite and Mrs. Avis Coates assisted in hostess duties.

The guest list included Cliff Coates, Luther Westbrook, Earl Seale and Ren Walker, all of the First National Bank, and Elvy Gray, Percy Stockton, Jerry Daniel and H. A. Quatite.

**MISSING FLIERS**

(Continued From Page One.) debt incurred by him in 1938 when Levaneffsky and a co-pilot rescued the American when he was forced down in Siberia and crashed, fracturing an ankle.

The first day's flight will take him over the ice floes of the Arctic, where the four-motor Russian plane may have been forced down. He said he would return to Fairbanks tonight without attempting to land en route and if the first survey is in vain will be ready to continue his search as long as gas holds remains.

"Hank" Jones, Mattern's mechanic, will accompany him in his rescue mission. Clear weather was reported over most of the route the mercy plane will fly to-day.

Just Allie, That's All. You can see how much of a companion I am with Elise," says the singer, whose concert tours have taken him all over Europe. "I don't need to tell you how much I influence her. We just are alike, that's all."

Elise breaks into the conversation with a jargon that her father interprets as the German equivalent of "She sells sea shells."

But the tongue-twister sounds worse in German. Milti, the German cook, thinks it's funny too and begins a high-pitched chatter with Elise in German. Kullman is inspired to break into a Vienesse song.

And the Kullmans are off again.

**CROP LOANS**

(Continued From Page One.) convenes again.

The senate promptly passed a resolution binding itself to this program. Chairman Jones (D-Tex.) of the house agriculture subcommittee predicted the house would approve it by Tuesday or Wednesday.

Misses Mildred Slay and Francis Hampill added further to the evening's entertainment, with the telling of fortunes, which was done in a most interesting manner. At a late hour the beautifully decorated birthday cake was served with punch and candles.

Among those who attended were, Misses Patsy and Elsie Arnett, Robby Tys, Norma Joe White, Annabelle Speed, Anna Joyce Sheppard, Norma Jean, Mrs. John McCown and Maurine Bates, Don Puryear, Elinor Pinchbeck of Corsicana, and Misses R. A. Ward, Jr., Woodrow Massey, Keith Jennings.

**Birthday Dinner.** KERENS, Aug. 16.—(Spl.)—W. T. Stockton, president of the First National Bank, was the recipient of a lovely buffet dinner, prepared by Mrs. Stockton, in honor of his birthday, Saturday evening.

Served at the table on the spacious and well-lighted lawn, it was a meal after a man's own heart, and to those in attendance completely robbed the date (Friday the 13th) of its significance.

The menu consisted of chicken pie, ham loaf, hot rolls, green beans, relishes, pickles, vegetable salad, and as a grand finale, the birthday cake (with three candles) served with home made peach ice cream.

Mrs. H. A. Quatite and Mrs. Avis Coates assisted in hostess duties.

The guest list included Cliff Coates, Luther Westbrook, Earl Seale and Ren Walker, all of the First National Bank, and Elvy Gray, Percy Stockton, Jerry Daniel and H. A. Quatite.

**MISSING FLIERS**

(Continued From Page One.) debt incurred by him in 1938 when Levaneffsky and a co-pilot rescued the American when he was forced down in Siberia and crashed, fracturing an ankle.

The first day's flight will take him over the ice floes of the Arctic, where the four-motor Russian plane may have been forced down. He said he would return to Fairbanks tonight without attempting to land en route and if the first survey is in vain will be ready to continue his search as long as gas holds remains.

"Hank" Jones, Mattern's mechanic, will accompany him in his rescue mission. Clear weather was reported over most of the route the mercy plane will fly to-day.

To Co-Ordinate Search. Meantime, attempts will be made to co-ordinate the aerial search over the Polar cap by establishing contact with Russian rescue planes flying from Moscow.

Crosson, who has directed the search for the last three days, said today that if the Russian plane landed in Alaska a systematic search should find it.

"A rescue in the Arctic regions would be much more difficult," he said.

Somewhere between here and the North Pole, 1,400 miles away, Pilot Sigmund Leaneffsky, one of the Soviet's ace airmen, and five companions disappeared Friday on a 4,000 mile flight to Fairbanks from Moscow.

In 1933, Leaneffsky flew into the wastes of Siberia to rescue Mattern, who crashed on an interrupted world flight and nearly

died before aid reached him.

Searchers saw in Mattern's arrival possibilities of a new aerial rescue drama of the Arctic, because the American's plane is one of the few here capable of long distance flights.

SCOTCH PLAIDS FOR CO-EDS

The fall vogue for Scotch plaids in college wardrobes is reflected in this machine-knitted wool coat of straight box cut. It's color-rust, brown and green-blended harmoniously with the brown sweater, skirt and knitted cap which are designed to be worn with it on the campus.

All requests for beauty information desired by Edna Kent Forbes' column should be sent in a self-addressed, stamped envelope (a.s.e.) and two cents in stamps to cover cost of printing and handling. For the illustrated pamphlet, "BEAUTY," ten cents in stamps or in cash, should be enclosed. Address Miss Forbes in care of this paper.

## HOT DAYS AND BEAUTY.

USE THE DOG DAYS  
Miss Forbes suggests that you make all the use you can of the rest of the hot days, making them into a real beauty treatment for the fall.

Take advantage of the remaining hot weeks of the summer, to rejuvenate yourself. In case you have missed the advice I have been giving during the dog days, I shall repeat it again this time. You can use the sun and the summer heat for a large variety of ailments and beauties.

Suppose you do. E. K. Forbes does not want to submerge. You do not have to. You can still use the sun's heat. Roll up, with nothing on, in a large white rubber cape or a large sheet of rubber, and lie in the sun, with a big hat or a parasol to protect your head and face. The heat will make you perspire; you can't help it, no matter how sluggish your skin is as a rule. You can sweat off pounds, if you want to reduce, and if you will merely to clear your skin to more lovely, glowing beauty, or to clear your system of uric acid poisoning, you perspire for a shorter length of time. If you are wrapped up enough so the cool air does not reach your skin, the heat of the sun on the rubber will force a fairly quick perspiration. You can avoid rheumatism, or reduce, or have a flawless skin, you can make liver and kidneys healthier, just by this method.

For wrinkles and crepey skin, coat the face and neck with odorless castor oil, or cover the dry places with creamy lanolin and let the hot sun bake this into the skin. It does wonders. To give your scalp a really perfect oil rub, cover the scalp with oil, let some soak into the hair and go lie in the sun. The oil bakes this into the scalp. Later, shampoo the hair, rinse with lemon or cold water, and push into waves and dry in the sun under a white net cap. This makes the hair beautifully shiny.

Coat finger and toenails with lanolin and let the sun bake this very good fat into them for you.

M. B.—When hair is bleached to the platinum shade, it is done with peroxide and ammonia, real-

ly not as much, or proportionately, as when these two are combined to bleach and discourage growth of superfluous hair. The easier for these, and also an aid in the bleaching is something oddly enough named "white henna," which has nothing to do with real henna, but it forms a paste, so all three ingredients do the bleaching and remain on the hair as long a time as is needed to effect this. Some persons may wash it all off in a half hour, while others may have to leave it on.

A hot oil hair and scalp treatment the night before the bleaching will do much toward counteracting the very drying effect of the whole bleaching process.

If you do this to your hair, it would be better to have the first bleaching done for you.

Gain in Value  
Of Farm Exports  
Over Past Year

WASHINGTON, Aug. 14.—(AP)—A decline of more than \$30,000,000 prepared today in the value of farm exports for the 1937 fiscal year over the previous year.

The bureau of agricultural economics said shipments of farm products for the year ended June 30 were valued at \$732,839,000 as against \$765,848,000 the previous year.

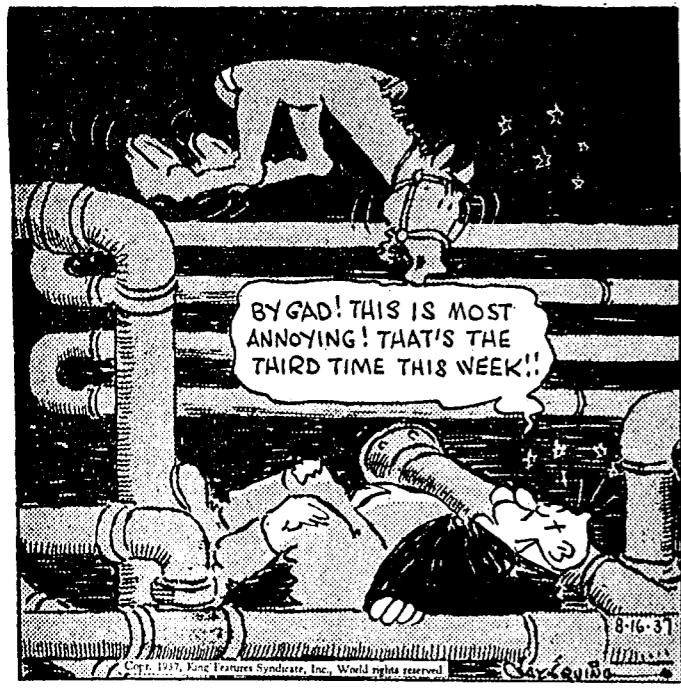

Volume of exports for 1936-37 was 55 per cent of pre-war levels (1909-14) compared with 60 per cent a year earlier.

Farmers Expected  
Buy Half Million  
Of Feeder Lambs

INDIANAPOLIS, Aug. 14.—(AP)—Scott Melks, manager of the Producers' Commission Association, one of the largest buyers of lambs in the country, predicted today farmers would buy 500,000 feeder lambs this fall, a new high for recent years.

Because pasture lands of the Panhandle have been below normal, Melks said he expected more Texas feeder lambs to come to the Midwest this year. He added most lambs from Idaho, Montana, Utah, Wyoming and Nevada would probably go direct to packers.

## REVISION OF FORMS TO AID EMPLOYERS IN MAKING REPORTS

AUSTIN, Aug. 16.—(Spl.)—Revisions of forms for quarterly reports will enable the Texas employer to make almost all of his wage reports to the Texas Employment Compensation Commission and the Federal government in one operation.

Orville S. Carpenter, chairman-director of the Unemployment Compensation Commission, announced today that the Texas form (TUC 4n) which is used for reporting of individual employment experience, has been altered to conform to the size and printed matter of the Federal form (SS 2a). Both forms can be filled in at the same time, the State form being acceptable to the Unemployment Commission as the first report.

It will be necessary that the exceptions occasioned by the differences between the Texas Act and the Social Security Act be observed, in full, reporting of wages in excess of \$3,000 per year, and the reporting of wages paid to persons over 65 years of age, as well as showing the full time weekly wage, where obtainable.

Printed five to the sheet, these new forms will be distributed about September 20 for the quarter ending on September 30. Employers are asked to destroy any of the old forms they might have on hand.

## INFORMATION ABOUT POSTPONED ANNUAL A.M. SHORT COURSE

COLLEGE STATION, Aug. 16.—(Spl.)—Cancellation of the annual Farmers' Short course, to have been held Aug. 16-19, at Texas A. and M. College, also brought postponement of the semi-annual conference of Texas Extension Service workers until the week of Sept. 6. Extension Director H. H. Williamson said the September meeting probably will be replaced with the summer and mid-winter gathering of the 75 county agricultural and home demonstration agents this year.

The short course was cancelled on recommendation of the state health officer who said that concentration of such a large group of boys and girls might contribute to a spread of infantile paralysis in the state.

Competition to determine Texas 4-H Club representatives in national judging contests, to have been held in the state, probably will be held here in late September, L. L. Johnson, state boys' club agent, said. He indicated only contests in which considerable interest had been shown would be held and that some might be dropped. In view of interest in the Texas cotton improvement movement, the cotton classing contests may be held, even though it is not a national contest, Mr. Johnson said. A total of 40 boys will enter the various contests and it is expected around 380 will participate in the contests here in September.

TEXAS FEEDERS TO FACE GOOD MARKET REMAINDER OF YEAR

COLLEGE STATION, Aug. 18.—(Spl.)—Texas feeders have prospects of an exceptional market for such beavers as they can finish out by the end of the year and the first two months of 1938, according to G. W. Barnes, animal husbandman of the Texas A. and M. Extension Service.

Barnes, who has recently completed a tour of the major grain and livestock areas of the state, reports that the grain crop is good over a major portion of Texas.

The good grain crop over a large part of the state, in combination with the shortage of grain for early feeding in the corn belt, makes this an ideal year for Texas feeders. Barnes said. He advised, however, that feeders should start their operations at once in order to get their animals well finished and on the market before corn belt beavers begin to move.

The excellent grain prospects in the corn belt have strengthened the demand for feeder and stocker animals, Barnes pointed out. Texas normally sells about two million feeders and stockers each year, he said and feeds out around 150,000 beavers.

If beavers are placed on feed as soon as the grain supply warrants, so that the animals can be marketed before early April of 1938, Barnes believes that Texas feeders could profitably finish out from 300,000 to 500,000 animals.

## Seek Negro After Woman Is Raped In Chicago Hotel Room

CHICAGO, Aug. 16.—(AP)—Chief John Prendergast of the uniformed police ordered an intensive search today for the black-wedged negro who assaulted and raped a young woman in the fourth floor room of a loop hotel. It was the ninth such attack in the last two years.

The latest victim was Miss Virginia Austin, 25, a former artist.
